Bijnor, U.P.

High School

U.P. Board

July 2014 - June 2015

Bijnor, U.P.

Experience

Teerthankar Mahaveer University

April 2024 – Present

Jr. Dot Net Developer

Moradabad, India

- Technology:** - C#, HTML, CSS, JavaScript, Bootstrap, Language Integrated Query (LINQ), MySQL, Entity Framework
- Description:** As a Jr. Dot Net Developer, I am responsible for developing and integrating new modules into a comprehensive Enterprise Resource Planning (ERP) system. This involved enhancing existing functionalities and creating new features to streamline business processes across departments such as admission, accounts, hostel etc. The role required a strong focus on backend logic using C# and LINQ within the .Net framework, coupled with front-end development using HTML, CSS, and JavaScript to ensure seamless user interaction and real-time reporting.

Academic Projects

★ CrossFit

Frontend: - HTML, CSS, JavaScript

Description: - A single-page, responsive gym website designed to serve as a digital hub for fitness enthusiasts. The site features a clean and modern design, utilizing HTML for a semantic structure, CSS for aesthetic styling, and JavaScript to power interactive elements. A key feature is the integrated BMI Calculator, which allows users to easily calculate their Body Mass Index by inputting their height and weight. This provides a valuable, personalized tool for users to track their fitness journey and health metrics directly on the page.

★ Online Examination

Technology: - HTML, CSS, JavaScript, Php

Description: - Developed a web-based Online Examination System that allows administrators to create, manage, and evaluate exams digitally. The system enables students to register, log in, and attempt exams with a real-time timer. It supports automatic result generation and question randomization to ensure fairness.

The admin panel allows managing question banks, subjects, and user data efficiently. This project improves examination accuracy, reduces manual effort, and provides instant performance evaluation.

Computer Proficiency

- **Technical Skills:** - C#, HTML, CSS, JavaScript, Bootstrap, LINQ, Entity Framework, .NET Framework, MySQL
- **Operating System:** Windows, MacOS
- **Tools and Service:** Visual Studio, VS Code, SQL Server Management Studio (SSMS), Internet Information Services (IIS), Git (Version Control & Collaboration)
